

Boy #8 (Age 9)

What Christmas spirit means to me is celebrating Jesus birth day and seeing your family from far, far away and just having lots of fun. And spending time with the ones you love and eating fantastic dinners with the ones you love and singing carols with them and receiving gifts that you trade for. Spreading kindness throughout the world and giving gifts to your friends and family and there is tons more that I do like. Riding the holly jolly trolley and doing lots more stuff like spending time with friends and doing things with them like going to their house and playing cards, playing with them and opening presents with them and sharing with them and many other stuff. And that is what the Christmas spirit means to me!
