

Girl #12 (Age 8)

The Christmas spirit means to me that is spending time with my family and friends and the people I love. When I see my family on the inside we get so happy because we see our loved family and there's food made from our loved ones. And we're always in a good mood. Also on Christmas I get to see my mom and she is single and works every day and I never get to see her and it means a lot to see her. All my family is very nice and kind and they are very special to me and makes me very happy. Me and my family cuddle on the couch and watch Christmas movies and music and eat the Christmas food and cookies. And that's what the Christmas spirit means to me.
