

Girl #19 (Age 10)

I think that Christmas Spirit means to spend time with your family, play games with your family and dinner with them to appreciate your family and what your family means to you. I also think that Christmas Spirit means to hang up bright lights and to be happy and have festivities, to just enjoy the Christmas season. Christmas Spirit means to have fun playing with friends and family, put down your devices and just spend time with the people around you.

Some people think Christmas is about presents and Santa, but really it's about family and friends. I believe Christmas Spirit should be about spending time with people around you not what you get, also be grateful for what you have. Christmas Spirit is something you can give by singing carols, watching Christmas movies, and giving food and money to charities. I think Christmas Spirit feels good. I believe you should always have the Christmas Spirit.
