

Girl #28 (Age 8)

What the Christmas spirit means to me is last Christmas my mema showed so much love and kindness to the family. She was giving and so special too. She would make good food like chicken and pie. I loved it. She truly knew what the Christmas spirit was. And she shared it with not only me, but the whole community. She was so special to me. She would make apple sauce jello. It was so yummy and delicious. She would make me so happy and make me so joyful. She means a lot to me. When she gave me presents I was so happy and excited. She as the kindest person I ever knew in my whole life. I never thought that I would be so happy on Christmas and I now know the true meaning of Christmas. Christmas spirit is not about getting gifts, it's about giving and family.
