

Girl #8 (Age 10)

What the Christmas spirit means to me is that . . . It's the time that everybody gets together and eats all the delicious food. I love Christmas, I don't know about you! It also means to me is that Family that hasn't seen each other in a very long time reunite and laugh together, sing carols and open presents all together. My family always eats at my grandma's. I think it's because she has a bigger house than the rest of us, but I don't know.

Christmas is where we celebrate Jesus and God and not Santa.

I love hanging out with all my family even the ones I don't really like. Christmas to me is all about family, food and last comes the presents. Presents are fun to give, but it's not what Christmas is about. It is better to give than it is to receive.
