

Prince #6

I like Christmas because I like the presents and the lights and the toys or coal if we are bad. I like to drive around and look at other people's lights. I like to play in the snow, having snowball fights with the neighbors. When we are done, we go inside and have hot chocolate. When it is Christmas time, the elves cause mischief. They are funny. After putting up our Christmas tree, we make a magic powder and put it on our tree. After a while, candy canes grow. On Christmas day, we get to pick them. They are large sticks. Christmas is the funnest day of the year.
