

Princess #12

I think Christmas is about spending time with family and having fun and being happy. Christmas is not about the presents or money. You need to have fun, be kind, and seeing family that you have not seen in a long time. Christmas is about making memories. I like to make cookies for Santa. Christmas is also about celebrating Jesus's birthday and remembering the sacrifices he made for us. I like to ride the holly trolley and look at all the different Christmas lights and decorations that people put out. I like getting to celebrate Christmas eve at my grandma and grandpas house with my aunts, uncles and all my cousins. I also love matching pajamas with my brother. My dad has a job where he has to work holidays so I also like to keep everyone who has other family working on the holidays in my thoughts and hope they have another parent home to spend the holiday with them. I like to show my dad everything that Santa brought us when he gets home from work the next day! I hope you liked reading my essay.
