

Princess #30

What Christmas Means to me. I love Christmas. But some people can not afford a tree or gifts or a home so if we can make their dreams come true and give them the Christmas they deserved. They deserved a home a Christmas dinner with their family and God by their side with every step of the way. Not all people want to help people in need that need food and water. What we can do is be the better person and help people, because when we help people we feel good in our hearts and I think that is a good Christmas. May God be with you this Christmas and the next and all the next to come. Sincerely,
