

HASTINGS Jingle & Mingle

Christmas means to me all the family and friends that gather up around the Christmas tree. Giving gifts to those who I love and watching their faces widen into a smile and play with the gifts I gave them. Another reason I love Christmas is decorating the Christmas tree with ornaments and lights and decorating around the house. I love Christmas smells like candles and the Christmas colors. My Grandma always makes raspberry fluff. I love you grandma and all the things you do for us and my family. I love giving and all the things Christmas gives to us. When my family is all done with opening gifts my family would make and eat cinnamon rolls every year kind of like a tradition. Then we would listen to Christmas music and watch Christmas movies. My favorite is Home Alone. I also like to eat a lot of food for Christmas dinner. I love stuffing and my grandma's deviled eggs. I think they are delicious. We always make cookies and pour milk into a glass for Santa. Christmas is not about getting presents or being alone, it's about being with the ones we love and getting to see their faces when you give them gifts and that is what Christmas means to me!
