

# HASTINGS Jingle & Mingle

It means coziness, happiness, and joy.

Coziness...

Rather than having all of our lights on like the dinner light, the lamp, and more, we can just have all of the cozy lights like the Christmas tree. Coziness is a big part of my Christmas and what it means to me. The lights are not too bright but just right! By having the cozy lights during Christmas, it makes me just so calm and understanding more of the Christmas holiday.

Happiness...

Christmas means happiness to me, meaning it makes me calm and people are nice to everyone. The lights are very cozy, and that makes me happy on the inside.

Joy...

Presents!! Ok let's talk presents. What a cool thing to see under the tree, the mysterious things that are wrapped. The presents beneath the tree have always brought me joy. I have joy to see what is on the inside. Thoughts race through my head about what's inside. I also like presents from my family. I love seeing family at reunions. That also brings me joy especially when I have not seen them in a while. Lights are always around Christmas. That brings me joy, warmth and the thought of Christmas. Another thing that brings me joy is Jesus Christ. He is the reason we celebrate Christmas. What a special day. A very special day he was born on!

What does Christmas mean to you? Merry Christmas!
