

HASTINGS Jingle & Mingle

Christmas is the best time of year! It's just about the holiest, jolliest, happiest time EVER! The hot cocoa, the beautiful weather and scenery, the elf on the shelf, and the magic in the air! To me, Christmas means spending time with family and friends, playing in the snow, sitting by the fireplace, and making memories. Have you ever felt the warmth and happiness of getting back inside after playing in the freezing cold snow, then drinking a cup of warm hot chocolate, and then making a gingerbread house with little gingerbread men inside? Well, I have, and you can too during Christmas times! On Christmas, people give presents out because Saint Nicholas (Santa Claus) gave presents to people who could not afford things, he gave them gold. Just imagine this, the fireplace on, the wind whispering, the beautiful snow-covered trees, the bright Christmas lights, CHRISTMAS MUSIC!! Ahem, excuse me. But you get the point! Christmas is amazing, and definitely my most-favorite holiday ever. I love that feeling of cuddling up in a blanket and watching Christmas movies, like Home Alone and Elf. (my favorites!!!)

In conclusion, Christmas is a wonderful time of year, and definitely my favorite. That is why I've written What Christmas Means to Me.
