

# HASTINGS Jingle & Mingle

What Christmas means to me first i go out of my room to give my mom and dad their presents. Next, we go to the store and pick out a sweater for my dogs then when we get home, we put the sweaters on the dogs. After we put the sweaters on the dogs, we open the presents and then we go to grandma's and grandpa's house and get a lot more presents. But the presents are not the most important part. It is love and spending time with family and friends .

My favorite part is the time with family and friends. I am the only girl at grandmas and grandpas, so I help the most. Another part that I like is putting the sweater on the dogs. Each dog gets a different sweater that is really really cute. The dogs love sweaters a lot because they are Boston Terriers, so they are cold when they go outside.

We all sit by the fireplace drinking hot chocolate and eating candy canes. We all had so much fun. When we get home, we watch a Christmas movie and cuddle up in our Christmas blankets that we get every year at grandma's and grandpa's house. Sometimes we spend the night at grandma's and grandpa's house I get to help pass out the presents and each year. Also, each year we give toys to people in need to make them happy and they are always so happy.
