

HASTINGS *Jingle & Mingle*

On Christmas eve me and my family put up our stocking and decorate our tree. When we wake up, we go into the living room and find our stockings, and all look at them together. I like to open presents with my siblings and see what they got too. We usually open them youngest to oldest. We always have a special breakfast with pancakes, whipped cream, fruit, and chocolate chips. We watch Christmas movies all day and play games. We spend the whole day together as a family and it is so much fun! Before we go to bed, we put milk and cookies for Santa on a special plate. This is what Christmas means to me
