Princess Essay #4

Christmas means spending time with family. I look forward to extra snuggles with my mom and dad. On Christmas Day I like playing the oven mitt game. Everyone wears oven mitts and tries to unwrap a present covered with layers of wrapping paper. Everyone has one minute to try to get to the present in the center. We all laugh so much every Christmas when we play. I also like making puppy chow and cookies with my mom. I love catching snow flakes on my tongue and sledding on big hills with my cousins. In December we watch Christmas movies, sit by the fireplace and read Christmas books. We also play Christmas notes on the piano and listen to Christmas music. In November I like decorating the Christmas tree and adding the star. My friends and I always talk about Christmas caroling but never get around to it! My friends and I also like to do secret Santa. Christmas is my favorite holiday ever made!
